

Lead Developer (SharePoint, .NET, Java)**Permanent**

BrightGen is an IT Services Company focusing on delivering Cloud based IT solutions coupled with IT Service Management and IT Consultancy. We are working with leading organisations across a range of business sectors helping them to implement critical business solutions. We are looking for a key individual to join our team helping to deliver premium services to our clients and building new commercial services.

We are looking for a new team member who is forward thinking with an appetite to learn and develop their skills. The successful candidate will have proven experience of design and development projects within an enterprise organisation utilising SharePoint, .NET or J2EE. In addition, the individual must be a self starter, used to working to strict deadlines and must take pride and responsibility in all areas of their work. A pro-active approach to delivery and customer service is mandatory.

Duties include the design and development of new applications or plug-in components and the resolution of service calls. The individual will be primarily based at our Witham offices with occasional visits to client sites which are mainly London based.

Essential Skills

Microsoft Office SharePoint Server 2007

C# .NET

Java (1.5 or above)

ASP .NET

Perl

JavaScript

HTML

Oracle

SQL/MYSQL

Agile development experience

ITIL certification or experience

Working for BrightGen in this position offers the right person an opportunity to play a central role for a fast growing, dynamic and ambitious company that believes in rewarding success. The role will be varied with the scope to develop different skills with a longer term goal of being a key member of a thriving organisation. The job includes a competitive salary, generous holiday allowance and participation in the company bonus scheme.
